

**HUNTINGTON BEACH UNION HIGH SCHOOL DISTRICT  
GOVERNING BOARD MEMBER**

**JIM PETERS**

**OCCUPATION:** Educational Consultant

I am a Professor of Educational Law, having lectured at Pepperdine University, Chapman University New Hope University I will bring to our school board the rules and knowledge for success. The discipline of Fiscal Accountability, I will insure respect for parents and students, Steadfast that their goals, dreams and Education are the highest priority for our staff. I will insist our teachers be credentialed and have the ability to motivate our students.

I have a 16 year old, and as such I am concerned about his Health and safety while being educated in these old decaying hot mold infested portables that were never intended as permanent structures for our children learning. I feel we must recognize excellent teachers, wire our schools better to provide our kids with the new technology they will need to compete in today's workforce.

Our District has serious Bus issues that need to be addressed. (Out of sight, out of mind) isn't working. We must encourage our teenagers to abstain from sexual activity. I as a Board members will not be afraid to acknowledge and resolve the serious problems facing the education of our children as well as the fiscal responsibility that must be adhered to.
